11.00 **ESG - Are We There Yet?**
Presentation

Is ESG an absolute necessity for Asian insurers? How important is ESG to stay competitive in the region as investors become more selective.

11.25 **Spotlight on Alternatives**
Panel Discussion

This panel will explore the challenges Insurers are facing in creating and building out their global alternative investment capabilities. From overseas assets and traditional alternatives to promising niche areas, what is the insurer's ideal portfolio?

12.10 **Master-class Workshops**

Delegates split into small groups for interactive discussions on a key area of insurance investment. Each workshop is led by noted expert in the specific field.

Workshop 1 Fixed-Income ETFs	Workshop 2 Factor Investing	Workshop 3 Private Debt
Fixed income ETFs seem ideal yet remain poorly understood. What are the best strategies for medium and long-term returns?	Factor-based investing is playing an increasing role in institutional portfolios. What are the types most suitable for long-term growth?	From securitised bonds to trade finance, what private debt investment tools deliver good results and manageable risk?

1.10 **Networking Lunch Break**

2.10 **Asian Infrastructure**
Panel Discussion

This panel will explore what levels of yield are deemed attractive for participating in infrastructure investments. Are Greenfield investments still too risky for Insurers? And what real-value infrastructure investment opportunities will arise in the context of the large regional initiatives?

2.55 **Multi Asset Investing**
Presentation

3.20 **Networking Coffee Break**

3.50 **InsurTech**
Case Study

4.10	**ALM – Striking the right balance** *Interactive Discussion* In this low-interest-rate environment, products that have been sold for decades proof to become increasingly challenging and a right product mix has become crucial. From strategic and tactical asset allocation to currency and regulatory risks, how can insurers meet their long-term goals?
5.00	**End of Conference**
